

Combining teachings about the law of attraction with the structured principles of engineering, this guide seeks to help readers on the path to happiness and success. Pointing out that rarely, if ever, will engineers seek to design complicated or unintuitive tools or machinery, the book argues that individuals should similarly strive for simplicity as they build a life around core values. The straightforward advice provided in this manual will help readers discover their "inner engineer," realize that they are capable of transforming grand ideas into reality, and design a life engineered for success and well-being.

Past and Present: Chartism and Sartor Resartus, The Miracles of Jesus (Young Readers Christian Library), The Rites of Men: Manhood, Politics, and the Culture of Sport, Great in Bed, Writing Training Materials That Work: How to Train Anyone to Do Anything, Ophthalmic Record: A Monthly Review of the Progress of Ophthalmology, Volume 9, When You Know You're Dying: 12 Thoughts to Guide You Through the Days Ahead, Moglichkeiten und Grenzen des Prinzips Ein Land - zwei Systeme Schwerpunkt Hong Kong (German Edition),
