

Raising a child with a psychological condition is a perfect storm of stress, heartache, and hard work. Ann Douglas knows firsthand just how daunting it can be--and what a difference knowledge and support can make. Each of her four children (now grown and thriving) has dealt with one or more mental health challenges, and Douglas shares what she has learned about coping with the emotional roller coaster, finding the best treatments, helping kids manage their symptoms and succeed academically, and keeping the family strong. Voices of numerous other parents who have weathered the storm are interwoven with advice from leading child psychologists. Douglas cuts through the often-confusing clinical jargon and speaks to parents from the heart about what matters most: the well-being of their kids.
